VOL. VI. NO. 174 — FRESNO, CALIFORNIA, WEDNESDAY, AUGUST 30, 1893 — PRICE—5 CENTS

CLEVELAND'S CANCER

A Monster Taken From His Jaw

WITH NO VERY ILL EFFECTS

Hope Expressed That All the Disease Has Been Removed.

PHILADELPHIA, August 29.—The Press publishes a four-column article reiterating the statement that President Cleveland had submitted to an operation on the yacht Oneida for the removal of a cancer, and requiring the cutting away of a considerable part of the upper jaw bone. So far there has been no serious effects, the Press says, but Cleveland is still very sick and his physicians fear the mortal disease is still lurking in his system.

A few days ago Colonel Lamont said in New York: "The President is a sick man, but how sick we cannot tell."

The Press says this operation took place at the time of the President's previous visit to Buzzard's Bay. The wound seems to heal easily and naturally, and the physicians hope that all virus has been removed and full recovery result. He is said to be improving daily.

BIG STORMS

Destroy Much Property in the East.

BALTIMORE, August 29.—Not since the great flood of 1868 has such a storm been experienced in Baltimore as that of last night. The wind blew a furious gale all the afternoon and in the evening rain began falling in torrents and did not cease until morning.

Roofs and chimneys were torn, telegraph and telephone wires wrecked and electric lights went out leaving a greater part of the city in darkness.

On the bay mountainous seas piled and rolled high in the basin, spreading over walls and flooding streets and adjacent buildings.

This morning the streets resembled lagoons instead of business thoroughfares: wharves are completely submerged and some portions destroyed.

Several schooners are high and dry on the streets.

Around New York.

NEW YORK, August 29.—Many houses in this city were unroofed or demolished and wires of all descriptions broken.

Long Island and Jersey shore resorts suffered more than from the storm of last week. Several wrecks on the water are reported and when the storm abates others are expected to be heard from.

At Philadelphia two electrocutations occurred this morning as a result of the storm.

Heavy damage to property was done at New Haven, Ct., by the storm.

The oyster beds are thought to be almost entirely ruined. Telegraph and telephone communication has been wanting all day.

The fruit orchards in Connecticut suffered much. Some are ruined.

It is impossible to accurately estimate the damage at present, though it will amount to over $1,000,000 in New Haven county.

It Was a Terror.

AUGUSTA, August 29.—Houses were blown down and carried in every direction by the tidal wave that deluged the town and country around Beaufort and Port Royal, and buried everything under from ten to twelve feet of water.

Only meager reports come in from other points near Beaufort, and it is feared that many negroes have been killed.

Torn to Pieces.

SAVANNAH, Ga, August 29.—It is feared that nearly 100 lives have been lost by the hurricane and flood, and scarcely a house in the city escaped damage. The streets are almost impassable from the tangle of fallen trees, twisted wires, house roofs and wreckage. The quarantine station was completely destroyed. Loss estimated at $1,000,000.

Choice Horse Flesh.

SAN FRANCISCO, August 29.—Three horses from the Palo Alto stock farm were sent east in a special car tonight. Aside from their being some of the best bred trotters belonging to the Stanford estate, especial interest is excited from their departure because of the fact that they are going to Russia. At Chicago they will be transferred to a representative of the keeper of the Czar's stud, who will in exchange bestow on Palo Alto four trotters of the famous Orloff breed of Russia. Humphrey Sullivan has charge of the trotters that went away, and will bring the Russian horses here from Chicago.

Slashed Again.

OMAHA, August 29.—The expected cut in salaries of employes of the Union Pacific is now a reality, as an order was made public today and takes effect September 1st, and every officer and employe of the road receiving $70 or more per month is affected. The schedule for reductions as quoted in the order were issued today as follows: Salaries ranging from $60 to $100 inclusive, 10 per cent; over $100 to $200, 12½ per cent; over $200 to $500, 15 per cent; over $500, 20 per cent.

Cowardly Bealle.

SAN FRANCISCO, August 29.—J. O'Hara Cosgrave, editor of the Wave, and Truxon Bealle, ex-United States minister to Greece, Servia and Roumania, who engaged in a street fight yesterday, were today fined $10 each for disturbing the peace. Cosgrave says that Bealle struck him while the spectators were holding Cosgrave's arms.

Will Try It Again.

SAN FRANCISCO, August 29.—The People's Home Savings bank, which closed its doors June 23d, opened for business this morning. The bank has deposits of $2,000,000, and in order to avoid a run will pay out only 2 per cent of the amounts deposited.

53D CONGRESS.

HOUSE.

WASHINGTON, August 29.—The senate committee on finance reported back the Wilson repeal bill, with a recommendation that the Voorhees bill be substituted.

Catchings called up the report of the committee on rules and a debate followed. An animated discussion over it was had between Speaker Crisp and ex-Speaker Reed, the latter criticising the report.

For the first time this session the speaker took the floor, having called Richardson of Tennessee to the chair, and replied to the criticisms of the gentleman from Maine. At times the debate was somewhat personal and each speaker received the plaudits of his party friends.

The debate was continued for some time by numerous members. When the subject was dropped Springer introduced a bill to provide for the coinage of silver in the treasury which was referred and the house adjourned.

GROWING RAPIDLY.

Fresno County Exhibit for the Mid-winter Fair.

Every day brings increased interest in Fresno county's exhibit for the Mid-winter Fair, and contributions of fruit are coming in rapidly. Commissioner Badger finds his time well occupied in disposing of the contributions, answering inquiries and generating enthusiasm.

The commissioners have requested that those wishing to donate fruit for the exhibit be again informed to be careful not to send fully or over ripe fruit. It should be solid but full grown.

No contributions of cereals have yet been made, yet it is desired that a particularly fine display of grain be made. Let the growers be as liberal as possible with their contributions, so that an adequate idea of the importance of this product in Fresno county may be arrived at.

The commission want sufficient Orange Cling peaches, also Late Crawford peaches, to fill one each of their very large jars. They require about seventy-five pounds each of extra selected specimens for this purpose, and above all they must not be overripe; must be very firm and solid.

The following donations were received yesterday.

W. S. White, Fresno; seedless sultana grapes.

E. B. Rogers, Margherita vineyard; Gross Mouvedre grapes, Beurre Clairgeau pears and Cornelian grapes.

George B. Rowell, Easton; Easter Beurre pears.

Holland Smith, Malaga; Winter Sickle pears, Flemish Beauty pears.

George Elliott, Oleander, Susquehanna peaches.

D. B. Sadler, Malaga, Orange Cling peaches.

Mrs. W. B. Bannister, Central colony, pampas plumes.

R. B. Williams, Central colony, Beurre Clairgeau pears and Hungarian prunes.

F. H. Chappelle, Oleander, White Heath Cling peaches.

A. K. Kahrahian, Fresno, Rose of Peru grapes.

J. A. Barricks gave a day's labor gratis, in putting up shelving for the jars. The lumber used was donated by Charles Cawrey, the well known caterer.

A Dandy Domino.

SHEEPSHEAD BAY, August 29.—Domino proved himself a worthy son of a noble sire today by winning the Great Futurity stake from a field of competitors. He carried top weight and delayed at the post nearly half an hour, and besides this the track was heavy and sticky. The value of the stake was $65,000, of which $49,715 goes to Domino.

MURDER IN TULARE.

BROTHERS-IN-LAW SETTLE A FAMILY TROUBLE.

S. M. Wilson of Fresno Flats Kills R. G. Rogers Last Sunday.

A press dispatch from Tulare, dated last Sunday, states that R. G. Rodgers, a prominent farmer living ten miles southeast of that city was shot and killed that morning by S. M. Wilson of Fresno Flats. Wilson and Rodgers were married to sisters and the former's wife is suing for a divorce.

Wilson claims Rodgers was the cause of the separation. Yesterday Wilson walked to Raymond, where he took a train for Tulare, arriving last night. This morning he walked to Rodgers' farm and was not cordially received.

Words ensued and Rodgers ordered Wilson off the place. The latter would not go. He said he wanted to talk over the matter. Rodgers finally took him by the collar and pushed him to the porch, and when Wilson still refused to leave Rodgers turned back to the house, saying he would make him leave.

Wilson then drew a pistol and fired, the bullet striking Rodgers in the shoulder. The wounded man ran around the corner of the house and fell, Wilson coming up and shooting him again as he fell.

Wilson then ran up, placed the pistol close to Rodgers' head and shot three times more. Rodgers soon got up and shot at Wilson three times, but missed him. Wilson then ran away, coming toward Tulare.

H. E. Emmery of this city came by Rodgers' place with two companions and was told to notify the officers. On his way to town he overtook Wilson riding a horse and Wilson gave himself up, asking to be protected from the mob. Emmery turned him over to Officer Murray, who took him to Visalia. The coroner's jury this afternoon charged Wilson with murder.

Rodgers was 49 years old. He leaves a family and has been farming here for twenty years. He was buried by the Masonic fraternity.

More Money.

WASHINGTON, August 29.—Secretary Carlisle has ordered the United States mints of Philadelphia and San Francisco fully manned and the full capacity of both mints to be utilized in the coinage of gold bullion. The treasury department possesses from $85,000,000 to $90,000,000 in gold bullion which is a part of the gold reserve of $100,000,000. The gold bars cannot be used as currency so it has been decided in the present need to coin the bullion on hand.

Will Remain Vacant.

SEATTLE, August 29.—Governor McGraw says he will not call a special session of the legislature to fill the vacancy caused by the refusal of the senate to seat J. B. Allen, unless a majority of the people of the state demand it.

THE CITY TRUSTEES

Back Yards and Alleys to be Cleaned.

ENGINE NUMBER 3 IN DOUBT

Salaries Reduced in the Fire Department—Some Miscellaneous Business.

The City Board of Trustees held an adjourned meeting at 7.30 p.m. yesterday, and all the trustees were present except Chairman Church.

On motion Trustee Herrington was elected chairman pro tempore, and the minutes of the last meeting were read and approved.

The petition of J. B. Hill for the return to him of the city's portion of $5 paid by him as pound keeper's fees on his horses was granted.

The application of G. H. Dusenberry for the position of driver of engine No. 3 was read and placed on file.

The petition of Fred Brauer for the transfer of his license as a saloon keeper from the burnt district opposite the Hughes hotel to the corner of J and Tulare streets, in the Edgerly block, was presented and, on motion, granted.

A communication from the board of delegates of the Fresno Volunteer Fire Department recommending as paid employes to take charge of engine No. 3: William Roberts for engineer, George Stevens for driver of engine and H. C. Pabst for driver of hose, was read and filed.

Mr. Spinney stated that he understood that Stevens had accepted other employment and suggested that the chief and board of delegates should recommend another person for the position.

Mr. Craycroft stated that when the board first took up the matter of putting the third engine into commission that services were to be rendered for less than the present salaries paid.

He had been informed that the engineer expects $100 per month. The city is about $20,000 behind now and expenses must be cut down to the lowest practicable point. He understood that good men could be obtained at less than $100 rates.

Chief Higgins stated that the engineer recommended was one of the best in the country. He had acted in this capacity on an Australian steamer line. He was now employed at $100 per month and found, but wanted to come here on account of his health.

Mr. Spinney stated that a capable man could be obtained for less money.

Mr. Craycroft stated that a capable man could be had here in Fresno, and he favored the appointment of a resident rather than an outsider. He recommended Mr. Cussman for the position.

At this point the matter was laid aside and other business taken up.

Mr. Spinney, for the committee, reported that the present police headquarters had been offered for $25 per month, and that the owner of the present quarters of the chemical engine had offered to extend them through the entire length of the building and put in a needed sewer, at $25 per month.

He was not prepared to recommend action in the matter at these figures, and the committee was given further time to report.

The contract to construct a sewer through blocks 337 and 333 was finally awarded to J. L. Hudson.

The matter of putting the Silsby engine in commission then came up as a special order.

Mr. Spinney moved that hereafter, beginning with September 1st, the salaries in the fire department shall be as follows: Engineers $80, drivers $65. The motion carried when put to a vote.

Mr. Spinney suggested that when the board adjourned it should be to Thursday night.

Chief Higgins suggested that this would give but little time to confer with the engineer recommended in San Francisco.

Mr. Spinney stated that he thought it a waste of time and money to confer with him as he was disposed to employ a local engineer and thought the other trustees were. If one was not recommended by the department, the trustees would have to look after the matter.

Mr. Craycroft moved as an amendment that the board adjourn to its next regular meeting. He stated that the insurance men had already advanced the rates of insurance and would not abate their raise even if the third engine was put in commission.

He did not deem it good policy in view of the depleted condition of the city treasury to put on another engine merely to protect the insurance policies.

Mr. Spinney stated that the matter should be attended to at once, as the employment of men dated from the first of the month, and matters must be settled before that time.

The original motion on vote was carried.

An ordinance with regard to the construction of buildings in the fire limits was then taken from the table and read.

It amends the present ordinance by requiring fire walls on all buildings at least four feet high and thirteen inches thick.

Chief Higgins then addressed the board at some length upon the condition of back yards and outhouses within the fire limits.

He strongly condemned the shacks allowed to exist there, and also the practice of making store houses of the back yards to stores. He advised that these be condemned and ordered removed.

Mr. Spinney wanted the ordinance in consideration amended so as to do away with the wooden shacks entirely.

After some further discussion and suggestions by the city attorney the matter was returned to him to draft the amendments suggested and the further consideration of the ordinance went over to the next regular meeting.

On motion $100 was transferred from the sewer fund to the street fund.

A number of proposals to furnish hydrants were then read by the clerk and filed, and the matter referred to the fire and water committee and Chief Higgins.

A committee of citizens appeared before the board with W. W. Phillips as spokesman and stated that a meeting was in progress at the Hughes for the purpose of discussing the insurance situation.

This committee had been sent to ask the Board of City Trustees to pass an ordinance to compel people within the fire limits to clean up their back yards and alleys.

They stated that the insurance companies had made complaint about this matter. Owing to the lurid reports of the penny-liners in town the companies had raised rates. They wanted an ordinance to empower the police to compel premises to be cleaned up.

Mr. Herrington stated that there was already an ordinance and that Chief Higgins had been engaged in that good and great work for some time past.

The matter was discussed by Chief Higgins' who showed the inefficiency of the method in vogue.

Mr. Spinney stated that the ordinances proscribed the existing conditions, and that the committee should have gone to the city marshal instead of the trustees.

The city attorney stated that the police were empowered to make arrests for non-compliance with the ordinance, and what was wanted was not new ordinances but enforcement of the present ones.

Mr. Craycroft thought the shacks should be condemned at once.

Mr. Spinney moved that J. T. Shanklin be appointed as an expert to act with Chief Higgins in examining and condemning these shacks, and that he be paid $3 per day for the time he was engaged in the work. Carried.

The bill of L. F. Vaughn of $5 for sewer work, was taken up and allowed.

The board then adjourned to Thursday evening at 7.30 o'clock.

Nearly Four Months In a Doldrum.

Held for nearly four months in an equatorial doldrum or dead sea calm until her provisions were exhausted and her crew on the verge of starvation was the terrible experience of the American ship Edward O'Brien, which had long ago been given up for lost. The ship is owned partly in this city, and the news of her safety has just reached the owners.

The ship left Victoria, B. C., early in December last for London with a large cargo of wheat, and nothing was heard of her until June 22, when she was sighted by the steamer Galilee in latitude 46.31, longitude 25.46, flying signals telling that she was short of food. She was supplied by the steamer, and Captain Whitton brought to New York news of the safety to the underwriters, who were demanding heavy premiums for reinsuring the vessel and cargo.

It was learned that the ship had made a fine run down the Pacific coast and around the Horn, but when near the equator she had been caught in one of the dreaded calms that prevail in that latitude. For three months she remained within a distance of half a mile from where she first struck the calm, and during that time there was not wind enough to fill even the lightest of her sails. Finally a small current, probably made by a storm many miles away, appeared and served to send her slowly out of the locality, which threatened at one time to become a place of death for all on board. On this current the ship drifted for almost another month. Then a welcome wind carried her back into the paths of navigation.—Philadelphia Record.

Exceptional Eloquence In College Sports.

The Boston Transcript makes bold to say that when we read that one "really manly" fellow in the Harvard crew the other day put his head down into his hands after his side had been beaten in the race at New London and boohooed like a child in the face of all the thousands of spectators we realize that there is a prodigious emotional element in these college sports.

PROPERTY OWNERS

OBJECT TO INSURANCE RATES

The Meeting Adopts Resolutions and Appoints a Committee.

At the Hughes hotel last evening there was held a meeting of the heavy property holders of the city. The purpose of the meeting was to discuss the recent action of the Pacific Coast Insurance Union in raising the rates on all classes of property in Fresno 50 per cent and to draft resolutions protesting against such increase and asking for its rescission.

Among the owners of property present were: F. G. Berry, J. Reichman, T. C. White, W. H. McKenzie, A. J. Wiener, L. Gundelfinger, W. W. Phillips, W. Helm, O. J. Woodward, E. G. Chaddock, N. G. Kittle, H. Levy, H. B. Colson, J. D. Gray, C. W. Parrett, A. Dinkelspiel, L. Einstein, A. Goldstein, T. E. Hughes and many others.

Fulton G. Berry presided and Alexander Goldstein was chosen secretary. The increase was fully discussed, nearly every one expressing himself upon the subject. Of course, the general sentiment was opposed to a continuance of the new rate. The speeches were temperate but to the point.

It was acknowledged that the property owners were under obligations to take all precautions against fire. They have been doing this all along, but one cannot always control one's tenants. The city has a good fire department and sufficient water, and its facilities for fighting fires are as good as and in many cases superior to those of other cities of the same population.

A set of resolutions were adopted after the discussion. They contained the arguments already published against the increase in rates and asked that the union rescind its order.

A committee of six was then appointed to confer with the representatives of the union and to present arguments orally against the increase. This committee is composed of A. Kutner of San Francisco, Louis Gundelfinger, Fulton G. Berry, H. D. Colson, T. C. White and W. W. Phillips.

The resolutions will be sent to the union today and a request that a day be appointed for a conference between the committee and the union's representatives will accompany the document.

It is stated that Senator White is opposed to Senator Frye's bill to extend the tenure in which the Pacific railroad companies may pay their debts to the government. If this be true, the senator is taking a course that will meet with general approval in this state. The railroads have been sufficiently favored, and should be compelled to meet their obligations at once.

But little is heard nowadays of the Monterey & Fresno railroad. Colonel Jones, like many other alleged railroad builders, seems more profuse in promise than in performance. It was reported some time ago that rights of way had been obtained to the river, but this has turned out to be a rank fake. Can no correct information be obtained concerning this scheme?

Fresno has done handsomely in the matter of providing food for the hungry laborers out of employment, says the Stockton Independent. In her generosity she has not been imprudent, however, but has acted wisely. She has provided for the worthy only and has done the honest poor a great kindness by refusing to let the hoodlum and the lusa partake of their food. Benevolence like that is doubly deserving of praise.

The Southern Pacific Railroad Company may, as the Call says, be trying to make the people in this valley believe they have railroads enough, but it will not meet with very brilliant success in this direction. A competing line in the San Joaquin valley would further develop the country and there would soon be plenty of business for S. P. R. R. The merchants and farmers along or near the new line should pledge themselves to give their business to the new road for a certain period. This would put the competing line on a good basis.

Economy in city government is a rare virtue and therefore to be commended. However, it sometimes is carried to such extremes as to cease to be truly economic, as in the case of Steubenville, Ohio, where the horses of the fire department were put to work on street improvements and the city was destroyed. Our city trustees have taken a step in the direction of reducing expenses in the fire department, a matter that deserves careful consideration lest its efficiency be crippled by a too saving policy.

Tulare should be as little calamity talk during the present stringency as possible. While business is exceedingly dull there is no danger of the country's going to the demition bowwows. It is true that the Democratic policy in both financial and tariff matters brought the country to the verge of a great panic, but the people nerved themselves and refused to take the final step that would bring ruin upon them. The country is too great for even a Democratic administration to destroy. There is now a better feeling observable, at least on this coast, and confidence is again resuming sway. Confidence not restored by anything the administration has done, but the result of reflection on the inexhaustible resources of the country, and the indomitable spirit of the people. There is no doubt that we have experienced the worst and that from now on there will be a steady though slow improvement in the situation. That progress in the return to prosperity would be more rapid if the adoption of a sound financial law could be expected of congress is certain, but as this cannot be depended upon we must be satisfied with going slower.

Raymond Notes, issued by an insurance firm in San Francisco, naturally approves of the action of the Pacific Coast Insurance Union in increasing the rates. It bases its approval upon the same grounds on which the union based its increase, and the engaging unanimity displayed is affecting. Rambling Notes says a good deal about a moral hazard, but doesn't touch at all upon the immoral hazards made by the local agents of the companies represented in the union. It is confidently stated by not a few persons that in their competition for business insurance agents do not hesitate to issue policies in excess of the value of the property insured. Is not this a temptation for people to get a little ready money in an easy way? We do not wish to imply, however, that anyone has taken advantage of the insurance companies. There is no proof, nor do we believe such has been the case. It is evident, however, that due consideration for their welfare should cause the companies to give strict instructions to their agents to avoid over-insurance, and they could well afford to have appraisers to pass on the property insured before issuing policies to the applicants.

The argument dealing with the danger from the immoral floating element of the community hardly deserves attention. The authorities have shown their ability to keep it in check and the petty outbreak that occurred recently was speedily squelched. The suggestion of Shambling Notes that Judge Lynch be inveighed is as idiotic as it is inconsistent. There are no disorders here to suppress and the floaters have found it so uncongenial a region that most of them have left the city. In short, there is no condition of affairs here to warrant the abominable cinch to which the union has subjected our property owners. The contention of a few light-headed citizens that the "penny-a-liners" were partly to blame for the increase is absurd. The accounts of fires sent to the San Francisco papers from here may have served as a convenient pretext, but certainly could not constitute a cause for the union's action.

An Amendment.

Some years ago in a very rural district a farmer had a cow for sale. Now, as there was no weekly paper to advertise in, it was the custom of the vicar to give such notices out to his congregation on Sundays. So the farmer thought he would go to the vicar and get him to advertise the cow in church.

"Yes," says the vicar, "but you don't come to my church."

And they struck the bargain that the vicar should advertise the cow and the man in return should go to church. Now, unfortunately, the man was very deaf, and on the Sunday following, when the vicar gave out the banns of marriage between Joseph So-and-so and Sarah So-and-so a rather unusual incident, for they seldom had a wedding,—the farmer took it for granted that the vicar was giving out particulars of his cow and shouted out:

"You may as well say, while you are about it, that she is a most gentle creature, entirely free from vice and a great eater."—London Tit-Bits.

Pimples

The old idea of 40 years ago was that facial eruptions were due to a "blood humor," for which they gave potash. This all the old sarsaparillas contain potash, a nauseating mineral, that instead of decreasing, actually creates more eruptions. You have noticed this when taking other Sarsaparillas than Joy's. It is however now known that the stomach, the blood creating power, is the seat of all pimples or cleansing operations. A stomach clogged by indigestion or constipation, vitiates the blood, result pimples. A clean stomach and healthful digestion purifies it and they disappear. Thus Joy's Vegetable Sarsaparilla is compounded after the modern idea to regulate the bowels and stimulate the digestion. The effect is immediate and satisfactory. A short testimonial to contrast the action of the potash Sarsaparillas and Joy's modern vegetable preparation. Mrs. C. D. Stuart, of 420 Hayes St., S. F., writes: "I have for years had indigestion. I tried a popular Sarsaparilla but it actually caused more pimples to break out on my face. Hearing that Joy's was a later preparation and acted differently I tried it, and the pimples immediately disappeared."

ELECTION PROCLAMATION

Election as to the Issue of Bonds of the County of Fresno.

NOTICE IS HEREBY GIVEN THAT IN PURsuance of an order of the Board of Supervisors of the county made on the 1st day of August, 1893, a special election will be held throughout the county of Fresno on the 2d day of September, 1893, for the purpose of submitting to the vote of the qualified electors of said county of Fresno the question whether the said board of supervisors of the county of Fresno shall be empowered to issue bonds to the amount of $100,000, running twenty years, said bonds to be of the denomination of not less than $500 nor more than $1000 and to bear interest at the rate of six per cent per annum, in order to raise the sum of $100,000 for the purpose of completing the enlargement of the court house and of furnishing the court house after being enlarged, said sum of $100,000 to be applied specifically as follows, to wit:

The sum of $50,000 for the expense of completing the court house according to the plans and specifications therefor now on file in the office of the Clerk of the Board of Supervisors of said county.

The sum of $25,000 to the expense of furniture for said court house.

The sum of $8000 to the expense of boiler heating and water apparatus for said court house.

The sum of $3000 to the expense of gas and electric lights for said court house.

The ballots shall read thus: "For the issue of Bonds" and "Against the Issue of Bonds." A vote for the issuance of bonds shall be by placing the stamp opposite and to the right of the words "For the Issue of Bonds," and a vote against the issuance of bonds shall be by placing a stamp opposite and to the right of the words "Against the Issue of Bonds."

The polls will be open at sunrise of the day of election and be kept open until 5 o'clock p. m. of the same day, when the polls will be closed. Said election shall be held as nearly as possible in conformity with the general election laws of this state.

In witness whereof, I, F. E. Letcher, Chairman of the Board of Supervisors of the County of Fresno, State of California, have hereunto set my hand, and caused the seal of said Board to be affixed at Fresno, this 1st day of August, A.D., 1893.

TITLE IV—PENAL CODE

Of Crimes Against the Elective Franchise.

SECTION—
11. Violation of election laws by certain officers a felony.
42. Fraudulent registration a felony.
43. Refusal to be sworn by or to answer questions of Board of Judges of Elections a misdemeanor.
44. Refusal to obey summons of Board of Registration a misdemeanor.
45. Voting without being qualified, voting twice and other election frauds, felonies.
46. Attempting to vote without being qualified.
47. Procuring illegal voting a misdemeanor.
48. Changing ballots or altering returns by election officers, felonies.
49. Inspector unfolding or marking tickets with intent, misdemeanor.
50. Forging or altering returns a felony.
51. Adding to or subtracting from votes given a felony.
52. Persons aiding and abetting or concealing guilty of felony.
53. Unfastening, corrupting, destroying or defacing election records misdemeanor.
54. Furnishing money for elections, except for specified purposes.
55. Unlawful offers to procure offices for electors.
56. Commanding such offer.
57. Bribing or offering to bribe members of Board or canvassers, etc.
58. Preventing public meetings.
59. Disturbance of public meetings, misdemeanor.
60. Betting on elections.
61. Violation of election laws by persons not officers.

41. Every person charged with the performance of any duty, under the provisions of any law of this State relating to elections, who willfully neglects or refuses to perform it, or who in his official capacity, knowingly and fraudulently acts in contravention or violation of any of the provisions of such laws, is, unless a different punishment for such acts or omissions is prescribed by this Code, punishable by fine not exceeding one thousand dollars, or by imprisonment in the State's prison not exceeding five years, or by both.

42. Every person who willfully causes, procures or allows himself to be registered in the Great Register of any county, knowing himself not to be entitled to such registration, is punishable by a fine not exceeding one thousand dollars, or by imprisonment in the county jail or State prison not exceeding one year, or by both. In all cases where on the trial of a person charged with any offense under the provisions of this section, it appears in evidence that the accused stands registered in the Great Register of any county, without having qualified for such registration, the onus must rest upon the accused to show how he acquired the right to be registered.

43. Every person who, after being required by the Board of Judges at any election, to take and subscribe an oath or affirmation touching his qualifications to vote, refuses to do so, or to answer any pertinent question propounded by such board touching his right, or the right of any other person to vote, is guilty of a misdemeanor.

44. Every person summoned to appear and testify before any Board of Registration, who willfully disobeys such summons, is guilty of a misdemeanor.

45. Every person not entitled to vote, who fraudulently votes, and every person who votes more than once at any one election, or fraudulently hands in two or more tickets folded together, or any ballot other than those which are delivered to him by the judges, or who deposits in the ballot box, or adds, or attempts to add, any ballot to those lawfully polled at any election, either by fraudulently introducing the same into the ballot box before or after the ballots therein have been counted, or adds to or mixes with, or attempts to add to or mix with, the ballots lawfully polled, any ballots which the same are being counted or canvassed, or at any other time, with intent to change the result of such election; or carries away or destroys any ballots cast at any election, any poll list, or ballots, or ballot box, for the purpose of breaking up or invalidating such election, or willfully destroys, mutilates or defaces any ballots, poll lists or other papers or interferes with the officers holding such election or conducting such canvass, or with the courts lawfully exercising their rights of inspecting such election or canvass, or with any person lawfully engaged in conducting such election or canvass from being lawfully held and lawfully conducted, is guilty of a felony.

46. Every person not entitled to vote who fraudulently attempts to vote, or who being entitled to vote, attempts to vote more than once at any election, is guilty of a misdemeanor.

47. Every person who procures, aids, assists, counsels, or advises another to vote or offer to vote at an election, knowing that the person is not qualified to vote, is guilty of a misdemeanor.

48. Every officer or clerk of election who aids in changing or destroying any poll list, or in placing any ballots in the ballot box, or taking any therefrom, or who adds to or mixes with the ballots lawfully polled at such election, either by fraudulently introducing the same into the ballot box before or after the ballots therein have been counted, or who destroys any ballots cast at such election, or adds to or mixes with the ballots polled any other ballots while the same are being counted or canvassed, or at any other time, with intent to change the result of such election, or who aids, abets or advises another to do either of the acts in this section mentioned, is punishable by imprisonment in the State prison not less than one nor more than seven years.

49. Every inspector, judge or clerk of an election who perverts or putting the ballot of an elector in the ballot box, attempts to find out any name on such ballot, or who opens or suffers the folds of such ballot to be opened or examined previous to putting the same in the ballot box, or who makes or places any mark or device on any folded ballot with the intent to enable any person or by which any person may afterwards know how the elector has voted, or who, without the consent of the elector, discloses the name of any person which such inspector, judge or clerk has ascertained or illegally discovered to have been voted for by such elector, is punishable by fine, not less than fifty nor more than five hundred dollars.

50. Every person who forges or counterfeits any certificate of election, or any return or record of an election, imposition to have been held in a precinct, town or ward, where no election was in fact held, or willfully substitutes forged or counterfeit returns of election in place of the true returns for a precinct, town or ward, where an election was actually held, is punishable by imprisonment in the state prison for a term not less than two nor more than ten years.

51. Every person who willfully adds to or subtracts from the votes actually cast at an election in any returns, or who alters such returns is punishable by imprisonment in the state prison for not less than one nor more than five years.

52. Every person who aids or abets in the commission of any of the offenses mentioned in the four preceding sections, or who being present at or cognizant of the commission of any of such offenses, does not give information thereof as soon as practicable to the District Attorney or Grand Jury of the proper county, or to some Justice of the Peace of such county, is punishable by imprisonment in the county jail for the period of six months, or in the state prison not exceeding two years.

53. Every person, who, by force, threats, menaces, bribery, or any corrupt means, either directly or indirectly, attempts to influence any elector in giving his vote, or to deter him from giving the same, or attempts by any means whatever to hinder, restrain, hinder or disturb any elector in the free exercise of the right of suffrage, or furnishes any elector with food or drink liquors, while or any other intoxicating beverages on any part of any day or night previous to or upon any general or special election, by the citizens in any election district or precinct in any of the counties of the state, where an election is in progress, during the hours when by law the polls of such district are required to be kept open, and before the election polls are required to be kept open.

Section 2. Any person or persons violating the provisions of this act shall be deemed guilty of a misdemeanor.

THE BOARD OF ELECTION

112. When an election is ordered, the Board of supervisors or other board having charge and control of elections in each of the counties and cities and counties of this state, shall appoint for each precinct from the electors thereof whose names appear upon the last assessment roll of said county, city and county, two Inspectors, two Judges, and two Clerks, to be selected respectively from the two opposing political parties which cast the greatest number of votes at the next preceding general election. The Inspector and Judges so appointed shall constitute a Board of Election for such precinct, such Board of Election shall canvass the votes for such precinct at the close of the polls. The members of said Board shall relieve each other in the duties of canvassing the ballots, which may be conducted by all or any two of them, and the certificate of result shall be signed by a majority of the whole. No person shall be eligible to act as an officer of election at any precinct who has been employed in any official capacity at the county, or city and county, in the state, within ninety days next preceding any election. No person shall be eligible to act as an officer of election who cannot read and write the English language, and any person who refuses to read upon such board, when called upon by a majority of the board, or who cannot read and write the English language, and any person who refuses to act upon such board, or as a clerk thereof, or who cannot read and write the English language, and who is not a qualified elector in the precinct, town or ward, where an election was in fact held, or willfully substitutes forged or counterfeit returns of election in place of the true returns for a precinct, town or ward, where an election was actually held, is punishable by imprisonment in the state prison for a term not less than two nor more than ten years.

A MINISTER OBJECTS

To Having His Premises Made a Dumping Ground.

EDITOR REPUBLICAN.—I wish to occupy enough space in your valuable columns to complain at the conduct of the superintendent of streets, the city marshal, or whoever has the matter in charge, in dumping the refuse gathered from the streets of the city into that portion of Stanislaus street in front, or nearly in front of my house. In particular, I object to the piling up of the tin cans extracted from this rubbish at the corner of my yard.

Is this rubbish any more sightly or healthy when put in a pile in one street than when scattered over the town? I do not like to be put to the useless labor of making a bonfire in front of my premises of material hauled from all over the town. Yours truly,

W. H. MARTIN.

Fire at Franklin.

The residence of C. A. Pierce, one mile south of Franklin school house, was burned Saturday evening. A PRIVATE MEETING

Held Yesterday by Vineyardists.

ONLY BIG BUGS REPRESENTED

They Will Pay 75 Cents With and $1.25 Without Board.

There was a meeting of vineyardists held yesterday afternoon in the reading room of the Hughes hotel. They were owners of extensive tracts, and had assembled for the purpose of discussing the labor question and to determine upon the price to be paid by them for general work during the present season. No small growers were present.

The meeting was a private one, no reporters or other outsiders being admitted. The gathering being composed of vineyardists it is presumable the labor discussed by them was vineyard labor, yet the report made to THE REPUBLICAN representative says "general" labor. As the gentlemen who attended the meeting were extraordinarily reticent, the persons interested will have to decide for themselves what the word "general" includes.

The meeting began early in the afternoon and lasted till about 6 o'clock, which indicates that there was considerable difference of opinion that needed adjusting. There were present: A. B. Butler, Herman C. Eggers, M. F. Tarpey, William Forsyth, George H. Maller, William and George Helm, Benjamin R. Woodworth, Dr. I. Eshleman, J. M. Cory, Edward Kennedy, George C. Roeding, Charles Bonner, George W. Taft, Hector Barness, E. A. Fortune, Alexander Gordon, H. A. Trevelyan, A. P. Adams, Lee Gray, Mr. Grant, Frank H. Ball and a representative of the Fresno vineyard.

After long discussion the following resolutions were passed, there being no dissenting voice.

Resolved, that we, the principal vineyardists of this vicinity, assembled to consult regarding wages of labor, have agreed to pay a uniform rate of 75 cents per day and board, or $1.25 per day without board, and that payment be made on the regular pay day of the vineyardist employing.

It was learned from a certain source that no step was taken at the meeting toward an agreement to give white workingmen the preference. The rates were established as given in the resolution and whoever applies for work will be accepted—of course, until the demand has been supplied.

The men at the free labor bureau were on the whole a little more cheerful yesterday. Quite a number of them secured work in the smaller vineyards. The owners of smaller tracts are clearly inclined to be more liberal than those of large vineyards, for they are paying $1 per diem and board.

C. N. Jensen took out ten men from Fahey's hotel to pick grapes for $1 a day and found. T. R. Brown and C. E. Robinson got twenty-two men from the same place at the same wages. Messrs. Brown and Robinson want about forty more men today. Steady workingmen may leave their names at Fahey's hotel and will be charged no fee for registration. Those gentlemen evidently believe in white labor.

J. D. Jones, ex-street superintendent, who now has charge of a large vineyard, also left an order at Fahey's for ten men to go out today. Wages, one dollar and board. Comedian Curtis took a number of white men to his vineyard yesterday. It is believed all the unemployed men will be provided for by the first of next week.

It is stated that eleven laboring men were arrested in Justice Lane's township yesterday and given floaters. This is unjust. The men have no place in which to sleep and lie down anywhere. One or two of the men arrested were employed in the soup kitchen at the free labor bureau. Officers should use a little discrimination, though by no means relax their vigilance.

Loads of Chinamen have been employed the last few days and numbers of them are arriving by every train. So it is evident that the little yellow man is still preferred by many people to individuals of their own race.

THE CHINESE METHOD

COMES THAT DID CONSIDERABLE DAMAGE.

Result of a Feud Between Two Clans of Mongolians.

Shortly after 3 o'clock yesterday morning all Chinatown was aroused by a series of explosions in the Lam Lee building.

The bombs were made of black powder, and were not such as are usually sold in stores, but were covered with cloth.

They were dropped down from a skylight in the roof—three of them and they exploded at intervals of about a half minute apart.

They wrecked the partitions, furniture and glass in that part of Lam Lee's building, but no one was injured.

The plot was evidently of Chinese origin as a squad of Chinamen were standing guard at Lam Lee's alley at the time and fired three shots at a white man who ran to give the fire alarm.

Examination showed that the bomb throwers had climbed upon some Chinese huts by means of a step ladder on the south side of Lam Lee's building to the roof and escaped by the same route.

A fight has been on and ready to break out at any time there for the past month. The theater recently opened interferes with the gambling, as it draws away the attendance.

It is supposed that some of them wanted to do up some of Lam Lee's tenants or the landlord, and took this course.

Miss Alexia W. Bassin of the Gibbs & Rule drug store left on this morning's train for the College of Music of Cincinnati to complete in vocal and instrumental music. While en route for Cincinnati she will take in the World's Fair.

YOUNG, BUT FUNNY.

THE BABY COUNTY CRACKS A JOKELET.

The Madera Mercury, Speaking for "Our Youngest," Says.

"The recorder and register's office are making complaints of the loss of all the small articles used by them, such as erasers, scratchers, pens, etc. The articles are said to have disappeared about the time that the delegation from the Fresno recorder's office left here.

"The abstract office was also burglarized, that is, Ed McCardle says it was. This, with the recorder's and clerk's forces, have decided to organize a detective bureau and employ John Griffin to watch any delegates from the Fresno county recorder's office that may hereafter come here.

"Of course, Dad Norris would not be included or suspected, as his time, when here, is always occupied by more congenial business than picking up loose things."

Yes! That's rather funny. Guess Dad Norris doesn't get a chance to pick up much of anything then. By the way, when are those Fresno county ballot boxes, borrowed for the special election, going to be returned?

THE HEATH BOND.

The Motion for Bench Warrants Delayed.

No action was taken on the part of the district attorney's office yesterday in the matter of the bail bond filed in the Heath case.

Deputy District Attorney Walker stated that the papers in the case which should have reached him from San Francisco yesterday morning had failed to reach Fresno.

He expected them to arrive last night, however, and will decide what course to take. He still believes the bond to be defective.

A BIG PETITION.

WEST SIDE SETTLERS APPEAL TO CONGRESS.

They Want to Preserve Their Homes Or Be Indemnified.

The settlers upon the 200,000 acres of land in the San Joaquin valley affected by the recent decision of Judge Ross have determined to ask congress to come to their relief.

A petition has accordingly been sent on to Washington. It is addressed to the senators and representatives from California and requests them to do all in their power to bring about such legislation as will materially aid the settlers in getting speedy justice. In this petition it is suggested that an act or a joint resolution should be passed by congress directing and authorizing the federal department of justice to take immediate steps to obtain from the supreme court of the United States a conclusive decision of the controversy between the settlers and the Southern Pacific Railway Company, and providing moreover for the appointment by the government of competent attorneys to represent the settlers at the hearing of the test case.

It is also suggested that the act or resolution should contain a provision by virtue whereof those settlers who hold patents for portions of the lands affected shall be indemnified by the United States for their expenditures of labor and money in case the supreme court decides against them.

The settlers believe, says the Examiner, that the justice of their request will be recognized at Washington and that the desired relief will be promptly granted.

"Of course," said John S. Macintosh, one of the interested gentlemen, yesterday, "we would not have settled on the lands but for the representation of the United States that they were government lands and open for entry. If we have been misled the United States should indemnify us for the losses we have suffered because of its mistaken representation, and the burden of litigation to determine whether the government or the railroad held title to the lands at the time we settled on them should not be borne by us, but by the original parties to the controversy."

FRESNO STILLS.

Deputy Collector Youngberg to Investigate Them.

J. E. Youngberg, the chief deputy collector of internal revenue, Saturday started on a trip of investigation of the brandy stills in the southern part of the state. His principal work will lie in Fresno, where large quantities of sweet wine will soon be in process of manufacture. Last year over 500,000 gallons of brandy were distilled in that county alone for the purpose of fortifying sweet wines.

This brandy is not liable to the 90 cent a gallon tax that all other distilled liquors have to pay. As a consequence great care has to be exercised to guard against the making of brandy for the market which is ostensibly to be used in the sweet wine trade.—Chronicle.

Popken Laid to Rest.

The funeral of John Popken, who committed suicide at Wolters' vineyard last Sunday night, took place yesterday afternoon at 4 o'clock from Stephens & Bean's undertaking establishment. The order of Hermann's Sons, of which Popken was a member, attended in a body. The deceased's sister did not come down from Livermore. It is said that Popken, though he lost $1000 in the Pacific bank failure, had $750 in another bank.

RAILROAD ASSESSMENT

BACK TAXES TO BE ENROLLED THIS YEAR.

The State Board Fixes the Amount Under the New Law.

The county auditor is in receipt of the assessment of railroad property as made by the State Board of Equalization on August 7th.

For the current year the amounts for which the various roads are assessed are as follows:

Southern Pacific Railroad Company, $1,385,627; Central Pacific Railroad Company, $557,073; Pullman Palace Car Company, $7,479.

The board also makes an assessment under the act of the last legislature for the unpaid taxes since 1879 as follows:

ASSESSED VALUATION.

	S.P.R.R. Co.	C.P.R.R. Co.
1880	$480,160	$557,073
1881	520,160	557,073
1882	560,160	557,073
1883	171,640	557,073
1884	172,640	557,073
1885	171,990	557,073

Under the provisions of the new law the tax to be levied and assessed against this property is to be at the same rate as was established for the tax levies of the respective years as established by the board of supervisors or other taxing board.

By reference to the records the county rate has been found to be as stated below. This rate and the estimates under it do not include the state taxes, but only what will come into the county treasury for county purposes—that is if the railroads pay their taxes.

RATE AND AMOUNT OF TAXES.

	Rate per $100.	Taxes.
1880	$1 18	$9,011 25

IMPORTED GERMAN BEER.

An Important Arrival at the Tivoli.

Last night Louis Scholler, proprietor of the Tivoli, received by fast freight a shipment of imported German beer of the brew known as Wurzburger. This is a famous beer in Europe, and is sold in only one other place besides the Tivoli on the Pacific coast. It will always be kept on draught at the Tivoli hereafter.

CROP REPORT.

Fresno Weather Bureau, Department of Agriculture.

Central California crop bulletin No. 22, for the week ending Monday, August 28, 1893:

The week has been cloudless except on the 25th, when a trace of rain fell at scattered points in the district, with fresh northwest winds and an increase in the humidity.

The daily temperature has averaged 1 degree above the normal, with a maximum of 102 and a minimum of 59.

Wine grapes which should show 25 per cent of sugar at this time only go 20 to 22 per cent.

The labor question is about settled, and raisin picking will begin this week. Indications are that the white labor cannot be depended upon, and the Chinese and Japs will have to be called upon to handle the crop.

This is the last crop bulletin for the season, and the thanks of the department are due to those who have done so much to make it of benefit to those interested.

A CHEERFUL PREDICTION.

The Approach of Better Times Foretold.

EDITOR REPUBLICAN.—A few months ago I stated in your paper that I believed very dull times were in store for us, as the banks in the money centers were hoarding their money to force an action to retire silver, and advised forbearance in business with each other.

The late action in congress in obeying the behests of the banks insure the retirement of the Sherman act, and now all may depend upon it that money will flow at least as free as usual in a few days, and all business will resume its usual channel.

Better prices than have been expected will be gained for products, and there will soon be a good market for labor.

While I do not believe the people will drop the money question, yet the future agitation will not disturb business for some time to come at least.

Grain Fire.

By some unknown means a fire got started in a 700 acre grain field on the ranch of Miller & Lux, and occupied by Tom Tyner, five miles south of La Vina, about noon Sunday. The whole of the field was burned. It was wheat, and fully 3000 sacks were burned with no insurance.—Madera Tribune.

A DESOLATE SCENE.

AN INDIAN VILLAGE DEPOPULATED BY A MAN EATING TIGER.

The Inhabitants of a Native Village Driven From Their Homes by the Ferocious Ravaging of a Bold and Bloodthirsty Rover of the Jungles.

As the party of a sahib one Indian evening came down the hillside by the widening path to the jungle village, no sound whatever arose from its few and humble habitations. Nobody came out to make salutation or to offer supplies. No cattle were perceived wandering about, no children, no birds, except indeed many vultures upon the tree in the square and upon the temple roof. The pots in the grain dealer's shop were empty and overturned; a piece of cloth just begun was left with broken threads upon the loom in the next hut. On the other side of the way the chatties at a potter's were trampled and broken, and a sheet of copper lay at the blacksmith's forge half bent to make some vessel, but precipitately abandoned. Wherever one gazed there were signs of a hasty flight on the part of the inhabitants, who did not seem to have left anybody to represent them.

Yes, there was one silent and melancholy representative, and the sudden appearance of her would have startled the party very much more than it did but for a discovery made by the sahib's ghorawallah—the groom—close by the silent and empty temple. There was a muddy patch there in the square, from which the last of the rainwater had but recently dried up, and in the blackslime so left were deeply imprinted the "pads" of an evidently immense tiger. It was of course evident now to the Englishman and those with him that the striped terror which left those footmarks had given the villagers notice to quit and was somewhere or other near at hand in practical possession of the fee simple of the village.

Desolate beyond expression was the little unpeopled "place" of the hamlet, and the look of the helpless red god staring from his portico upon the huts that he could not protect, and the excitement of the horrible vultures perched on the cotton trees, aware, no doubt, of the deadly secret of the place, for round the corner, by the dyer's shop, where two or three newly stained turban cloths still hung upon walls to dry, they came upon a dead sweet. Across the threshold of a mud hut, evidently dragged out from the broken charpoy on the earthen floor, lay the body of a woman, torn on the delicate brown neck and along the shoulders and breast with long red claw marks. A dead infant, also mangled by a savage bite, lay half concealed under the corpse, the appearance of the bodies showing that they had only been lately killed. No one could doubt what had killed them. The sign manual upon their bodies was surely that of the royal beast who often in this way disputes the right of his human rival in India and roars to scorn the illusion that man is master of created things.

The sahib's party was badly equipped for tiger shooting and passed not without anxiety and the closing up of the three or four servants and coolies through the outskirts of the evicted village. At any moment her ladyship the tigress or his lordship the tiger, who had taken possession of the place, might emerge from a grain store or a cow pen, or even from some milk bush or jowari patch, to ask the travelers what business they had upon the royal property. The Englishman hastily put bullets into both barrels of his shotgun and walked his horse as quickly as his men could follow out of the ill fated gauna.

At its outskirts they were astonished to hear a voice high above their heads which came, as they afterward found, from a young Hindoo low caste man sitting concealed in the branches of a large mango tree from which could be seen both entrances of the village. He had made a rude platform in a fork of the tree and watched on it with the long barrel of a matchlock protruding and by his side an earthen jar of water. They invited him to come down and to tell them the meaning of the extraordinary spectacle they had witnessed. He descended and informed them that for months past his village had been infested and persecuted by a tigress which, after killing cattle and goats, had slain and partly eaten three or four children outside the hamlet and had taken during the past eight or nine days to entering the village at night and carrying off somebody or other sleeping, as the Hindoos do, outside their huts under the verandas. The woman slain that morning with her baby was the wife of the poor thatch black man, and he had perched himself in the tree hoping to avenge her death when the sahib's party passed.

It was too serious a case not to be reported in the proper quarters, and an expedition of practiced tiger shooters was equipped among the officers at the nearest station. The beast was tracked and was killed after receiving 11 bullets, and then it turned out that she had a half grown cub which had lost a limb, and thus the maternal affection of the ferocious parent had driven it to these desperate ways. Indeed the spectacle of that village was full of philosophical suggestiveness. The dead human mother had been slain by reason of the very same instinct which had made her seek in vain to preserve her child from the attack of the tigress, driven to its wit's ends to find food for its own helpless offspring. The tigress was in her way as tender a parent as the loving mother whom she murdered, and then besides there was the whole village depopulated to make one wonder what sort of a world it would have been if, as might well have happened, tigers had enveloped as masters of the globe instead of men.—Edwin Arnold in London Telegraph.

China makes a poor show in the journalistic world. For all its 400,000,000 inhabitants it has only 24 newspapers, 10 of which are daily and 14 appear at longer intervals.

Now Try This.

It will cost you nothing and will surely do you good, if you have a cough, cold or any trouble with throat, chest or lungs. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to give relief, or money will be paid back. Sufferers from la grippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Webster Bros. City Drug Store, corner K and Mariposa street.

Specimen Cases.

S. H. Clifford, New Cassel, was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Spenker' Catawba, O., had five large fever sores on his leg, doctors said that he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Webster Bros. City Drug Store, corner K and Mariposa streets.

A NICE GAME.

The Children Enjoyed It, but Their Aunt Found It Rather Tiresome.

The listener does not know whether or not to believe this story, which comes to him from the country about some city children. It sets forth that old Mrs. Hayrick, who lives on a farm, was receiving a visit from her little nephew and niece, Johnny and Mary Peters, from Boston. They played merrily enough out of doors, but presently there came a very stormy day when they were not permitted to play even in the barn. Mrs. Hayrick thought that the children would be lured to amuse, but they announced at once their intention to play "papa and mamma" in the dining room and seemed to enjoy the anticipation of it very much. Their aunt watched them through the kitchen door. They arranged themselves on opposite sides of a small work table whereon Mary had placed some dishes and began to play that they were eating dinner.

"These potatoes are a little raw," said Johnny presently.

"I don't think so," answered Mary archly.

"And now that I've mentioned it the beefsteak is pretty badly overdone," Johnny went on.

"William, how can you?" exclaimed Mary.

"I suppose you think it's good enough for me," said Johnny.

"It's too good, that what's I think, for such a brute!"

"And what put it into your head to mix the bread with vinegar?"

"I didn't."

"Who did, then?"

"You mean, mean thing."

And Mary, setting down a cup with so much violence that her aunt feared it would break, rose and rushed out of the room. Both children seemed to regard the game of "papa and mamma" as very good pastime, but their aunt found it rather tragical.—Boston Transcript.

He Got Away.

The tall, aged, sad looking man ate a bountiful dinner at the restaurant, and then with a cheek calling for 75 cents made his way to the cashier's desk. He banged down the check with a battered silver dollar and looked sadder than ever.

The cashier picked up the dollar and examined it suspiciously. It had a deep dent on one side, and looked as though it had been plugged. At that moment the customer spoke: "It is very painful for me to part with that dollar. It saved my life once, however, and must do so again. At the siege of Vicksburg I carried it in my vest pocket, and the dent you see there was made by a bullet, which otherwise would have killed me. I have kept it since as a memorial, and it well nigh breaks my heart to let it go, but I must—I have nothing else."

The cashier was plainly interested. "In what year was the siege of Vicksburg?" he asked.

"Sixty-three," said the sad man promptly.

"And this dollar," resumed the cashier, "is dated 1873 and is a counterfeit."

The sad man looked astounded. "Of course it is," he replied. "How could I have an 1873 dollar in 1863 if it wasn't a counterfeit?"

And the cashier was so dumfounded that he passed out a quarter in change and allowed the sad man to escape.—Harper's Magazine.

A Parrot Story.

A lady who had bought a parrot of a bird fancier was shocked afterward to discover that the parrot was addicted to the pernicious habit of "exaggerated colloquialisms." The lady at once took the bird back and complained, requesting him to refund her money. The man refused, saying it was quite a common occurrence. He then told her that at the time the parrot offended to take it out of the cage, grasp it by the tail and swing it violently round her head several times. It was not long before the parrot raised the lady's ire by a string of choice expressions, and the lady proceeded to "take it out" of the bird. After swinging it round for best till she was tired she laid the parrot on the table. The bird got up, and shaking his feathers together quietly remarked:

"By thunder, what a gale!"—Tit-Bits.

SUBSCRIBERS TO THE REPUBLICAN

(Daily or Weekly) May Secure a Copy of Either

"The Ladies' Own Cook Book" or "Our Family Physician"

By sending to this office the name of a new subscriber to either daily or weekly with pay for first month for daily (sixty cents) or three months (seventy-five cents) for weekly.

These books are, either of them, worth many times the price of the paper, but are given away so as to increase the already large circulation of THE FRESNO MORNING REPUBLICAN and FRESNO WEEKLY REPUBLICAN.

The books are well and substantially bound, clearly printed, and are highly useful in the household.

OUR FAMILY PHYSICIAN

Is a standard work, over 100,000 copies having been printed and sold. It was compiled and edited by H. R. Stout, M. D., a physician of more than national reputation. It is a plain, practical and reliable guide to the detection and treatment of all the diseases common to the country. Designed for use by people who have not made the practice of medicine a study or a business and who are not supposed to be familiar with technical phrases and names, but want information stated in plain English. Gives separately with every disease the treatment prescribed by each of the "schools" and full and explicit directions for nursing the sick, preparation of food for the sick, etc.

To know when to go after a doctor is an important thing. Nine times out of ten calling one is a useless expense, while failing to call one at the proper time may cost a life. This book contains 540 pages, bound in cloth, making an ornamental, as well as useful, addition to any library.

THE LADIES' OWN COOK BOOK

Is a practical and economical guide to cooking, canning, curing and preserving. Including also a chapter on confectionery, showing how to make all kinds of candies, ice cream, etc., by MRS. JANE WARREN.

This book is a standard authority on cooking. It is very tastefully printed and bound in oilcloth.

A copy of either of these valuable books will be presented to any subscribre of THE REPUBLICAN, according to the terms set forth above.
